RSNA Index to Imaging Literature

An Index to *Radiology*, *RadioGraphics*, and 40 other journals in Diagnostic Radiology, Interventional Radiology, and Radiation Oncology

January 1998

Volumes 194–205(I), 1995–1997
Supplement to *Radiology*

Looking for ways to earn CME credits during the year?

You don't have to wait for the RSNA Scientific Assembly and Annual Meeting. RSNA offers radiologists the opportunity to earn CME credits throughout the year.

1

RadioGraphics

The teaching journal RSNA members and subscribers already receive can enable them to earn up to 4 hours of Category 1 credit per issue. In each issue, four peer-reviewed articles, each with 10 companion questions, enable physicians to earn 1 hour of Category 1 credit per article.

2

Learning Center Resources

RSNA's Learning Center Resources catalog offers a variety of continuing medical education programs for CME credit in Categories 1 and 2. Selected learning resources on CD-ROM are available for Category 1 credit. You may also claim Category 2 credit for your study of videotapes, CD-ROMs, slide/audio cassettes, and printed syllabi. To receive an RSNA Learning Center Resources catalog call 630/368-3753.

3

RSNA ej ELECTRONIC JOURNAL

CME credit is now available on-line. RSNA's electronic journal, RSNA EJ, offers selected articles and quizzes on-line, enabling physicians to earn up to 3 hours of Category 1 CME credit. Like the articles, the quizzes are peer-reviewed; completed quizzes are submitted electronically. Physicians who correctly answer 80 percent of the questions are allowed to print out a certificate of participation indicating the course number, participant, and number of credits earned. http://ej.rsna.org

PREFACE

The 1995–1997 *RSNA Index to Imaging Literature* follows the format used for the past several editions.

New terms are added as new entities and new subjects come into view. If for 3 years there are no new entries under a term, it is dropped. These changes are listed on page 922.

Since at the deadline for completion of the *Index* we have access to the contents of *Radiology*, *RadioGraphics*, and *Academic Radiology* for the entire year, the indexing of these journals is complete. Contents of other journals not yet available at the deadline, October 1, are carried forward to the next issue of the *Index*.

ANTHONY V. PROTO, MD, *Editor*
WILLIAM R. EYLER, MD, *Index Editor*
